

Ones

Suggestions:

1. Have students build the number 10 by filling the 10 frame with objects such as macaroni, toys, etc.
2. Add one object to the ones page and show that this is 11. (a filled ten frame and 1. Write the number 11 and show what each digit means. (the first digit means one set of ten and the next digit is how many are left over after ten.
3. Repeat with the rest of the numbers from 10-19.
